

MUHAMMAD YASIR KHAN

Electrical Engineer (Telecommunication)

+923172959656

@ yasir.amazai.3@gmail.com

Karachi, Pakistan

EXPERIENCE

Network Operation Center (NOC) Engineer

BankIslami Pakistan Limited

11/2020 - Ongoing Karachi, Pakistan

- Nodes Status monitoring via alerts/NMS.
- Diagnose and troubleshoot technical issues via L1 support, including Connectivity.
- Properly escalate unresolved issues to appropriate internal/external teams (e.g. field teams, Vendors, deployment and NOC).
- Refer to internal database or external resources to provide accurate information.
- Follow up with branch POC to ensure their IT systems are fully functional after troubleshooting.

PROJECTS

Energy optimization via POE switch

06/2019 - 09/2019 Karachi, Pakistan

Final Year Project (FYP) Project

- In this project we optimize power from Power over Ethernet (POE) switch in which power and data transfer over CAT6 cable to operate LEDs to minimize the AC sockets complexity in the company or offices.
